## THE MOST ADVANCED SAFETY PACKAGE OF ANY MID-SIZE PICKUP.

### WE'VE GOT YOUR BACK. AND EVERYTHING ELSE.

A comprehensive package of available innovative driver assist technologies use strategically located cameras to help warn you of potential risks on the road – or even in a parking lot.

### AVAILABLE SAFETY PACKAGE.

This package, available on LT models, includes Lane Departure Warning and Forward Collision Alert. A rear vision camera is standard on all models. This safety technology is unmatched by any competitor.

### LANE DEPARTURE WARNING.

If you unintentionally change lanes without initiating the turn signal, this available camera-based system sends an alert. The camera, mounted near the interior rear-view mirror, reads traffic lane markings when identifiable and provides audible and visual alerts.

### FORWARD COLLISION ALERT.

This available feature continually monitors how close your vehicle is to the vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it alerts the driver to a potential crash. It also warns the driver if their Colorado is following a detected vehicle much too closely.

### STABILITRAK WITH TRACTION CONTROL.

The advanced StabiliTrak® Electronic Stability Control System with rollover mitigation works in conjunction with the standard ABS and traction control.

**SIX AIRBAGS.** Every 2016 Colorado offers six standard airbags.<sup>1</sup> Sensors determine how many airbags deploy – including side airbags for the driver and front passenger.

### REAR VISION CAMERA.

When travelling in reverse at low speeds, the available rear vision camera provides a real-time picture of the area immediately behind your Colorado on the colour display.

### HIGH-STRENGTH STEEL FRAME.

The ladder-type frame is made from 83% high-strength steel and ultra-high-strength steel for enhanced occupant protection and reduced mass.

### SAFETY STARTS WITH YOU.

Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the Colorado Owner's Manual for more important safety information.

Colorado Crew Cab Long Box LT  
in Cyber Grey Metallic with  
available features.

<sup>1</sup> Airbag inflation can cause severe injury or death to anyone too close to the airbag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger airbag. See the Owner's Manual and the child safety seat instructions for more safety information.
