TOYOTA

# Tundra. Engineered for workdays and project days.

Can a truck on the road today have all the strength, capacity and features of tomorrow?

The 2016 Tundra answers that question with a resounding "yes". In fact, the Tundra is built to over-deliver in every way.

Brute force describes its towing and payload capacity. Refined style describes its captivating interior. And its rugged good looks are but one-way to describe the curb appeal of every Tundra.

Feature for feature, and pound for pound, there's no other truck as capable at turning heads as it is at moving mountains like the 2016 Tundra.

#### 1794 EDITION

The 2016 Tundra bears its name proudly with its unique 1794 badging and comes with exclusive features that include 20-inch chrome clad alloy wheels, leather seat surfaces with suede inserts, and a unique Sunset Bronze Mica exterior colour.

FRONT COVER/PAGE 2  
4x4 CrewMax 1794 Edition  
shown in Sunset Bronze Mica.

# This beast is a true beauty.

Of course you expect a full-size pickup like the Tundra to be tough and capable. But the level of comfort and class that it features may come as a very pleasant surprise. The bold exterior design will get you noticed on the job site, and around the neighbourhood. On the inside, you'll find a level of sophistication that gives the word "premium" a whole new meaning, like available leather seats with contrast stitching, soft touch materials throughout the cab, and chrome-plated accents. Not only is there plenty of head and legroom, an available 10-way power adjustable driver's seat offers thigh support for added comfort. All together, features like these make the Tundra one of the most exciting trucks on the road today.

**DISPLAY AUDIO SYSTEM<sup>4</sup> WITH AVAILABLE NAVIGATION<sup>5</sup>** The Display Audio System<sup>4</sup> with available Navigation<sup>5</sup> offers a convenient and easy way to stay connected. The system features an available 7-inch touch-screen with Bluetooth<sup>®</sup> wireless music streaming, and a unique "text-to-speech" feature that converts text messages from your phone into voice messages, which play through the vehicle's speaker system.

**DUAL ZONE CLIMATE CONTROL**  
An available Dual Zone Climate Control with individual temperature settings lets the driver and passenger set their own climate.

**1794 EDITION** As beautiful as it is on the outside, wait until you get behind the wheel of the 1794 Edition. With craftsmanship that's just as sophisticated, the interior features exclusive premium brown leather seats with contrast stitching, chrome-plated accents, user-friendly technology, and one of the largest crew cabins in the segment.

**THOUGHTFUL DETAILS**  
To accent the rugged and refined styling of Tundra, the CrewMax Platinum interior features genuine black leather seats with finely crafted, quilted stitching.

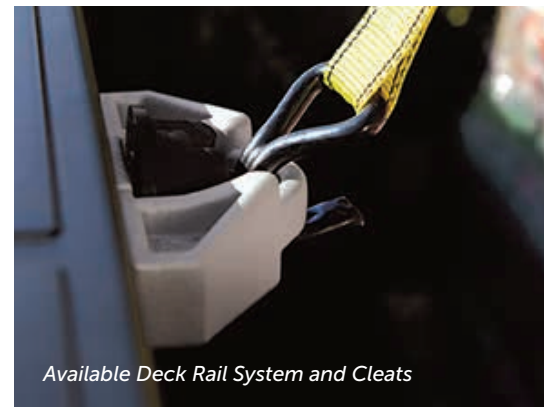

# More. You'll find it everywhere.

Real beauty is in the details. And that's a good thing because we thought of every detail. A glove compartment that fits much more than just your work gloves is a welcome addition, as are rear-seat cupholders and an easy to access overhead console, the perfect place to store your sunglasses. But that's not where the detail ends. With one of the largest cabins in its segment, each and every passenger can enjoy the ride to work or the ride to your weekend getaway in total comfort.

shown in Silver Sky Metallic.*

**We've been  
making trucks  
for 80 years.  
And that's just  
the beginning.**

With a heritage that goes back eight decades, it's no wonder that Toyota trucks are the world's choice.<sup>11</sup> And with a history like that, they've done a few interesting things over the years. Toyota trucks have had more entries in the Dakar Rally than any other brand. They were the first trucks ever driven to the Magnetic North Pole. And the South Pole. With a storied racing heritage that includes 304 off-road wins, 27 manufacturers championships, and 28 off-road drivers' championships, Toyota trucks are winners wherever they travel. For decades Toyota trucks have journeyed far and wide. That's why they're perfect for Canada, from coast to coast, today and for years to come.

*Toyota Land Cruiser*

# Capability never looked better.

Toyota has over 80 years of truck history built into the 2016 Tundra. So, what does that mean for you? It means that no matter how big the job, the tow, or the crew, you'll know that the Tundra is equipped to handle it all. In fact, the full-sized Tundra has a standard towing capacity of up to 10,500 lb. (4x2 Regular Cab 5.7 L), which means it can haul just about anything. And, all Tundras with the 5.7 L engine include an integrated, electronic trailer brake controller to help provide seamless and optimized braking control using both vehicle and trailer brakes when a trailer is attached. But it's not just about the jobs of today that we've considered. Impeccable durability and reliability means that over 90% of Toyota pickups sold in Canada over the last 20 years are still on the road today.\* That means your Tundra will be ready for the work and play of today and for the tomorrows still to come.

**AUTOMATIC LIMITED-SLIP DIFFERENTIAL (Auto LSD)** Auto LSD uses the brakes to simulate the action of a mechanical limited-slip differential. Typically, engine torque is distributed to the rear wheels through an open differential, which sends power down the path of least resistance. That may work for turns where the outside wheel has to spin faster than the inside wheel, but not if a wheel loses traction. In that case, the differential will send all of its torque to the spinning wheel. With Auto LSD, Tundra applies brakes individually to wheels with no traction. This increases resistance at the slipping wheel, feeding power to the wheels with grip.

**4WD ACTIVE TRACTION CONTROL (A-TRAC)** Tundra models equipped with 4WD offer an A-TRAC system that helps improve grip in low-traction conditions – whether it be on-road, off-road, or on a split-traction surface. Activated by a switch on the dash, the A-TRAC system works in conjunction with Auto LSD to help prevent wheel spin.

**TRAILER-SWAY CONTROL (TSC)** When a vehicle is towing a trailer, various weather, road, and steering conditions can result in dangerous trailer sway. Tundra's TSC is a system that detects trailer sway and applies brake pressure at individual wheels and controls engine torque to help stabilize the trailer. The system also illuminates the stop lamps to alert drivers to the fact that your vehicle is decelerating.

4X4 Double Cab Long Bed with accessory towing mirrors shown in Silver Sky Metallic.

# One size does not fit all.

Whether you're using it for the weekday grind, a project on the weekend, or an adventure with the family, Tundra can handle it with ease. With a choice of two torque-heavy fuel-conscious engines, you'll never have to worry about having enough power for any job. The brawny i-FORCE 5.7 L V8 engine delivers 381 hp and 401 lb.ft. of torque, which is enough muscle to cut big jobs down to size. The 4.6 L i-FORCE V8 may be compact, but it utilizes Dual Independent VVT-i and ACIS technology to produce an impressive 310 hp and 327 lb.ft. of torque. And with great power comes the need for even greater control. That's why we equipped Tundra with a 6-speed automatic transmission and an available two-piece driveshaft. So go ahead, throw any passion project and your family weekend at the Tundra. It can handle it.

4x4 CrewMax Limited shown in Blazing Blue Metallic.

DEALER E-PROCESS

**MASSIVE RING GEAR** Massive torque loads need a massive ring gear to manage the stress of repeated heavy payloads and towing. That's why the 5.7 litre engine is equipped with a 266 mm (10.5 in.) ring gear, and the 4.6 litre engine is matched to a 241 mm (9.5 in.) ring gear.

**TOW/HAUL MODE** The available TOW/HAUL mode expands the use of lower gear ranges, helping prevent the transmission from awkwardly shifting or "hunting" for the right gear. Particularly useful while towing or hauling a heavy load, the system enhances acceleration, downhill engine braking, pulling power, and cruising comfort.

**TRAPEZOIDAL FRAME SECTION** When you think of suspension, you probably think about up-and-down movement. But our engineers also thought about lateral stability. The trapezoidal rear section of Tundra's TripleTech™ frame allows the rear leaf springs to be positioned toe-out, where the front is mounted farther out than the rear. The result: The trapezoidal rear frame section and the toe-out rear leaf springs when combined deliver superior lateral stability when cornering and especially while towing heavy loads.

**INTEGRATED HITCH RECEIVER** Tundra is available with a towing hitch receiver, which is integrated into the frame. The 4 and 7 pin trailer connections have been repositioned to allow for greater accessibility and convenience.

**INCREASED FUEL CAPACITY (5.7 L MODELS)** The 5.7 L Tundra models feature an increased fuel capacity of 144 litres, which adds up to an improved driving range.

4x4 Double Cab with TRD Off-Road Package shown in Inferno.

## Tundra Cab Choices

### Regular Cab *Available with Long Bed.*

Whether you're carrying a payload,<sup>10</sup> towing the family trailer, or going to the next job site, a full size pickup needs to meet every challenge it encounters. Available as a 4x2 or 4x4, the Regular Cab is developed specifically with Canadian pickup drivers in mind, so that you're ready to tackle virtually any task, anytime, anywhere.

### Double Cab *Available with Standard or Long Beds.*

Available as a 4x2 or 4x4, Tundra Double Cab boasts a spacious cabin with seating for five or six and tons of interior storage. Equipped with your choice of a 4.6 L or 5.7 L i-FORCE V8 and two bed lengths: a 6.5-foot Standard bed or 8.1-foot Long bed.

### CrewMax *Available with Short Bed.*

CrewMax 4x4 is propelled by Toyota's 5.7 L i-FORCE V8 mated to a 6-speed Automatic Transmission. The cavernous cabin is loaded with innovative technologies, tons of storage, and ample seating for five or six crew members.

# Tundra. It's more than just muscle.

# Surround yourself in safety.

Inside and out, the Tundra is one safe pickup. Active and passive safety systems work in perfect harmony to ensure that every trip you and your passengers take is a safe one. High tensile strength impact door beams minimize cabin deformation and absorb and disperse the impact energy in a collision, helping to keep you and your passengers' safe. And, the 2016 Tundra comes standard with the Star Safety System,<sup>TM</sup> our advanced integration of safety technologies that includes Vehicle Stability Control,<sup>6</sup> Traction Control, Anti-Lock Brake System, Electronic Brake-Force Distribution, Brake Assist,<sup>7</sup> and Smart Stop Technology.<sup>8</sup>

**STAR**  
SAFETY SYSTEM<sup>TM</sup>

**BLIND SPOT MONITOR<sup>9</sup> WITH REAR CROSS-TRAFFIC ALERT<sup>9</sup>** Tundra comes with an available Blind Spot Monitor (BSM)<sup>9</sup> with Rear Cross-Traffic Alert (RCTA),<sup>9</sup> which uses radar technology to help you identify vehicles that may not be visible when changing lanes or backing out of a parking space. When a vehicle is detected, a warning indicator illuminates on the appropriate side view mirror.

**BACKUP CAMERA** When reversing, the 6.1 or 7-inch touch-screen on the dash displays an image of what the camera sees behind you.

**BIG BRAKES** A big part of controlling a trailer is having the ability to stop it. To that end, Tundra has large front brake rotors and 4-piston brake calipers.

**8 AIRBAGS<sup>1</sup>** Tundra comes standard with 8 airbags,<sup>1</sup> including: dual-stage driver and front outboard passenger airbags, front seat-mounted side airbags, driver and front outboard passenger knee airbags, and roll-sensing head/side curtain airbags.

## Genuine Accessories

Personalize your Tundra to enhance both its appearance and performance. Many of Toyota's Genuine Accessories can be residualized or advanced through Toyota Financial Services when purchased at the same time as your new vehicle, and yes, they are all backed by a Toyota Warranty. For a complete list of vehicle-specific accessories, visit [accessories.toyota.ca](http://accessories.toyota.ca) or your local Dealer.

## New Vehicle Warranty Summary – No deductibles – no transfer fees

### COMPREHENSIVE COVERAGE 3 years or 60,000 km.

This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

### POWERTRAIN COMPONENTS 5 years or 100,000 km.

This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

### MAJOR EMISSION CONTROL COMPONENTS 8 years or 130,000 km.

This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

### CORROSION PERFORATION 5 years/unlimited distance.

This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

## Disclaimers

(1) All Toyota vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer. (2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (3) Toyota tests certain Bluetooth® capable phones for compatibility with Toyota vehicles. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual compatibility. Please see your Toyota Dealer for details. (4) Driving while distracted can result in loss of vehicle control. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. (5) The Toyota Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Rely on your common sense to decide whether or not to follow a specified route. Detailed coverage is not available for every city or roadway. Optional periodic geographic updates are available at an additional cost. The Navigational systems in some vehicles are available with bilingual capability. Please see your Navigation System Owner's Manual and your Toyota Dealer for further details. (6) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. (7) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (8) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. (9) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (10) Payload = Passengers, Equipment, Luggage and Cargo. (11) Based on global cumulative production and / or sales figures as of CY2014.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website [toyota.ca](http://toyota.ca) – or your Toyota Dealer is your best source for up-to-date information.
